

# box net set-up

- guide**
- All box nets should be supplied with text converted to outlines
  - Using the template outlined, create your artwork ensuring the text/logo orientation is correct
  - All background images/colours should go right up to the edge of the bleed area
  - Remove all template content and save as a 300dpi, CMYK PDF file

- Trim Line
- — — — — Fold Line
- — — — — Bleed Line
